MAYOR'S INAUGURAL ADDRESS

Gentlemen of the City Council:—

It is my pleasant duty to welcome you to this Council Board for the ensuing year. I extend a special welcome to the new Members and hope that you will find the work congenial. You will be given copies of Rules of Order as to procedure in Council, and the City Officials are always ready and willing to furnish you all information in regard to the different Departments.

It is generally known that Municipal Councils are conducted on the Budget plan, i.e. in due time the Committee on Finance and Accounts will present the estimates for the year. These estimates are calculated on the probable Revenue and Expenditure for the year, and it is the duty of the City Council after they have ascertained the amount of such revenue to strike a tax rate so that expenditures will equal the Revenue, and no more. If we can do this in the coming year we will have a balanced Budget. I have always been of the opinion that these estimates were not taken as seriously as they should be, with the result that deficits are made and these deficits are put in the expenditures of the following year, and are always a serious handicap to the new Council. The Revenues are obtained principally from Taxes, Rents, Licenses, Fines and Fees, and the Revenue last year from sources other than taxes amounted to about $41,000. The expenditures are usually classified under two headings as Uncontrollable and Controllable. Uncontrollable Expenditure consists of deficits from the previous year, Debentures and Sinking Fund and interest on Debentures, Administration of Justice, Police Department, Education, Suburban Road Area, Mothers' Allowance, Old Age Pensions and Public Library. The City Council hasn't any option in these matters and the continual increase in the Municipal Debt, together with increased demands in the other items in the above list are the chief reasons why the tax rate is boosted so high that the taxes are not paid, and thus Municipalities go into bankruptcy. The Controllable items consist of — Chamber of Commerce, Election Expenses, Interest, Insurance, Printing and Stationery, Refund of Taxes, Law Expenses, Board of Health, City Property, Parks, Traffic and Safety, Fire Dept., Board of Works, Water, Street Lighting, Salaries, Charitable Grants, Contingencies and Relief.

Former Councils have been diligent in allotting amount for the above expenditures consistent with efficiency, and I will expect the Committees of this year to practice the same economy.

I have always considered it bad business to allow our public buildings to depreciate for want of repairs, and I wish to compliment the Chairman of last year's Committee for the amount of repairs made considering the small amount of money at his disposal.

Direct Relief and Relief Administration

In the past we have administered Direct Relief with a Public Welfare Board under the jurisdiction of the Provincial Welfare Department. The Municipality has paid one-third and the Provincial Government has paid two-thirds of the cost of the Direct Relief. Besides the appointment of a Public Welfare Board the City Council has appointed an Administrative Staff consisting of Relief Officer, Investigators, Clerks, etc. The cost of this Staff together with the Municipal Relief expenses in connection with it are paid in full by the Corporation. The cost of relief has assumed such comparatively large proportions that to make it clear to the ratepayers the following financial statement is submitted:

The expenditure on Relief this year including cost of administration will be about		$ 73,000
Total Relief Expenditure to Dec. 31st, 1935, covered by bond issues is		446,000
Annual cost of the above	$84,901	
Annual cost of Administration	13,200	
Making a total annual cost of	$98,101	
	— over 5 mills on 1936 Assessment.	

This yearly increase to the above will be made until 1939 when annual maturities of the bond issues will begin.

The number of families on Relief in Dec., 1934, was	492
The number of families on Relief on Jan. 3, 1936 is	523

The above figures showing the cost to the Corporation for administration of expenses alone disclose a very serious condition, and it may occur to you that this large expenditure may warrant your most careful consideration with a view to a complete administrative re-organization. Administration costs alone on the City's expenditure totals approximately 22½%.

I do not anticipate much change in the estimates to the different permanent Committees, Boards, and other Utilities, but I am of the opinion that a saving can be made in the matter of Direct Relief costs and in the Municipal Administration Relief Costs. Under instructions from the Department we are carrying on under the old plan, but are promised that we will be advised in the near future of the changes to be made in accordance with the deliberations of the Convention which met in Ottawa.

Public Welfare Board.

I am presuming that you will appoint a Public Welfare Board for 1936 and having served for five years on this Board I take the liberty of advising the Board that they should immediately make a survey of the Relief question in Kingston, including a new registration of all persons on Relief by a competent person or persons with a view to determining what steps, if any, should be taken for removing persons from the list who are not entitled to Relief, and a further investigation of all services performed by the Members of the Administration Staff and others, and also as to their capacity and fitness for their work with a view to increasing the efficiency and lessening the costs of Direct Relief and Municipal Administration.

I am pleased to report that our tax collections for the past year have been very good and that there is a very little falling off with the exception of the taxes on vacant lots. Heretofore, owners of vacant lots in the outer parts of the City have asked for and obtained Local Improvements with a view of selling these lots and building houses. The tax on the lots is small but the Local Improvement tax is considerable and as the sale of these lots and erections of buildings has not met their expectations a substantial amount of these taxes is unpaid.

We are again grateful for a healthy year. Dr. Keyes, Medical Health Officer, has been very diligent and excellent results are shown in his Annual Report.

I appreciate the valuable services of the Churches and other Charitable Organizations as well as the Service Clubs. They are doing a good work and reach and relieve many cases of distress that would not be brought to our attention.

Not so very long ago the Government of Municipalities was a routine affair of economy and good business but now Municipalities are today confronted with far greater financial and other problems than ever before, and I am asking the whole-hearted co-operation of the Members of the City Council, Public Utilities Commission, and all the various Social Organizations of the City so that we may work together for the common welfare of all the citizens.

Moved by Ald. Stewart, seconded by Ald. Trowbridge, (1) that the address of the Mayor be received and referred to the Standing Committees to deal with the various items noted.

City Clerk. Mayor.

January 21st, 1936.

A special meeting of the City Council was held to-day at 4 p.m., His Worship Mayor Hanson presiding.

Present: Ald. Anglin, Baker, Boyd, Byron, Carson, Casterton, Curtis, Dalton, Mercer, McNevin, Nickle, Rowland, Stansbury, Stewart, Trowbridge.

The Mayor explained that he had given instructions to call this special meeting of the Council on account of the death of His Majesty King George V. He conceived it to be the duty of the City Council to take part in the Memorials, and had been in consultation with General Anderson, O.C. of this Military District, as to the procedure which will be taken.

Moved by Ald. Dalton, seconded by Ald. Stansbury, (1)

That not only the British Commonwealth, but the whole world was saddened when the news was flashed to the far corners of the Empire and to British ships at sea that His Majesty King George V had passed away at 6.55 E.S.T. yesterday.

His Majesty has been the reigning Sovereign of the British Empire since the year Nineteen Hundred and Ten. He was never spectacular, but he was always a beloved Monarch. It was the tie of respect which bound the King and his people, and his personal traits endeared him to his subjects. He was the reigning Monarch during the Great War, and this became the greatest trouble of his reign, and every British subject is familiar with the wonderfully wise and judicious part he played as Counsellor. None contributed more to this victory than the King. He was noted for genial humour, and the world of sports has lost a valuable patron in his demise.

George V will go down in history as the Democratic King, and time and again he gave full evidence to the welfare of the British people, and those over whom he had dominion were his utmost concern. These are a few of the reasons why he is so sincerely mourned to-day, and I will move, seconded by Ald.

That the Mayor send a cablegram expressing the sympathy of himself, this Council and all the citizens of Kingston to the Dowager Queen, His Majesty King Edward VIII and all the Royal Family in this their greatest bereavement.—Carried.

The present contract dated July 2nd, 1930, is to be cancelled as of January 1st, 1936, and within Thirty (30) days after the signing of the new contract, we are to pay the City the sum of SIX HUNDRED ($600.00) DOLLARS in full and final settlement of all questions arising from the contract dated July 2nd, 1930.

4. That the terms and conditions of the new contract shall be identical with those of the old contract with the following exceptions:

(a) The first exception is that the City of Kingston is to have no participation nor interest in the nett revenue of the Company, but will receive certain percentages on a portion of the gross revenue of the Company, from whatever sources derived. These percentages shall be:

On the gross revenue up to $35,000.00 per annum, the City shall not be entitled to any percentage whatever;

On the gross revenue above $35,000.00 per annum, and under $40,000.00 per annum, the City shall receive 2½%.

On the gross revenue above $40,000.00 per annum and up to $55,000.00 per annum, the City shall receive 5%;

On any gross revenue over and above $55,000.00 per annum, the City shall receive a percentage of 7%;

The City shall have no participation nor percentage on any revenue derived from investments into bonds of the Shawinigan Water & Power Company made during the year 1935, but redeemed in April, 1936. The earnings from this transaction appertained to the business of 1935. Interest on this investment for the three months ended March, 1936, shall be included in the gross earnings for 1936;

The third exception is that the schedule of fares as in the old contract may be reduced and reinstated from time to time without the consent of the City, provided that in no case shall the rates of fares be increased beyond the fares at present specified without the consent of the City. The Company agrees, however, that upon the revision of the present contract the rate of fare for children shall be FIVE CENTS, or EIGHT TICKETS FOR TWENTY-FIVE cents, instead of FIVE tickets for TWENTY-FIVE cents, as at present.

The fourth exception shall be that Clause Three (3) of the old agreement shall be abrogated and replaced by a clause providing that the Company may continue to use the equipment at present in service, and shall replace and add thereto from time to time such modern equipment as the service shall demand, and that all coaches will be kept in first class running order, clean and neat.

The fifth exception shall be that the City Auditor shall have no right of access to any of the Company's books or records, except the record of its gross receipts and any records of support in connection therewith. However, the Company agrees to furnish the City with a certified true copy of the audited annual statement;

IT IS AGREED that the City will take all necessary means to protect the Company from taxi or jitney competitions. The City shall permit the Company, if it so desires, to place salt or sand on the public streets as a preventive to skidding on icy or dangerous roadways.

IN THE EVENT of war or any other developments that would affect the economic situation in a drastic manner or an abnormal extension of the area of the city of Kingston, the terms of this contract will be reconsidered by the parties thereto, and in the event of them being unable to arrive at a mutually satisfactory agreement, the question shall be submitted to the Municipal and Railway Board of the Province of Ontario for adjudication. In the event of this clause being invoked, the books and records of the Company shall be available for examination by an accredited representative of the City.

We would request:

That Clause 6 of the old agreement be extended to provide that all public vehicles except the City buses should be kept behind the existing deadline fence at the Park;

That Clause 10 of the old agreement should be amended to provide that a zone with a frontage of forty feet be reserved instead of thirty-five feet as at present.

I wish to assure you of my full appreciation of the courtesies and patience extended by yourself and the members of your Committee during the negotiations that have taken place in bringing this matter to a conclusion.

Yours very truly,

(Signed) H. R. MALLISON,

Vice-President.

Gentlemen,—Acting under the following resolution of the City Council which was passed on July 16th, 1936:

Moved by Ald. Nickle, seconded by Ald. Dalton,

"That the following be a committee to confer with the local Public Utilities Commission in the hope that the financial differences that now exist between the Hydro Commission of Ontario, the local Commission and the city re street lighting may be satisfactorily adjusted, and further that the committee endeavor to get some workable agreement between the local Commission and the city on a per lamp basis for street lighting that will meet with the approval of the Ontario Hydro Commission. That the committee be given full power to negotiate with either or both Commissions and report its conclusions to Council for final approval:—

Committee—Ald. Nickle, chairman; Ald. Rowland, chairman Fire and Light Committee; Ald. Dalton, and Mr. Macpherson (Auditor)."

Your committee met the local Public Utilities Commission on August 10th, 1936, when, after discussion, the amounts for $2,000.00 and $6,000.00 as shown in the city budget as a credit against street lighting for 1936, were approved by the Commission, and $14,000.00 was agreed to be the amount Council would be called upon to pay for street lighting for the year 1936.

It was also agreed that as soon as possible the local Commission and Council's committee should meet the Ontario Hydro authorities and endeavor to get the arrears and short payments for street lighting from 1917 until January 1st, 1937, adjusted.

September 11th, 1936.

On September 3rd the meeting with the Hydro representatives was held at their office, in Toronto, at which the chairman, Mr. T. Stewart Lyon, Mr. R. T. Jeffery, chief engineer, and Mr. G. F. Drewry, assistant municipal engineer, were present.

2. "That the $15,000.00 not to be paid in cash but to be credited with any savings in the cost of street lighting in the future.

3. "That street lighting shall be supplied at cost.

4. "That cost shall be figured annually but shall not become effective until Mr. Folger has had an opportunity to check same.

5. “That the rate per lamp shall not be more than

Regular, 100 c.p. lamps	$12.00	per lamp	per annum
Regular suspension lamps	35.00	“	“
Ornamental lamps	46.00	“	“

and any lamps added during the year to be at a pro rata rate.

6. “That as the cost of street lighting decreases, the rate per lamp shall be adjusted accordingly but not until the $15,000.00 has been wiped out.

7. “That the account shall be rendered monthly by the Commission on a ‘per lamp’ basis and be paid by the City Treasurer within thirty days from receipt by the city.

8. “That if the accounts are not paid as indicated in clause No. 7, the Treasurer shall within 35 days of the receipt of the account by the City, notify Council in writing, stating the reason why the account has not been paid.

9. “That unless payments are made in accordance with clause No. 7, neither the Ontario Hydro Commission, nor the local Commission will be obligated under clauses Nos. 2, 3, or 6.

September 29th, 1936,

His Worship Mayor Hanson and Members of
Council of the City of Kingston.

Gentlemen:—

Re Invoices and Voucher Warrants

The existing method of handling invoices and voucher warrants appears to be unsatisfactory, and should be corrected if the disbursing of city funds is to be conducted safely and efficiently.

Up to the present, invoices (except in the case of the Board of Works, Fire, and Police Departments) evidently have been directed to the auditor's office where voucher warrants have been prepared and expenses allocated. The warrant must then be placed in the hands of the officer in charge of the department affected to be signed by him, and should also be initialed by the City Treasurer (per Revised By-law No. 4, Sec. 44), before being returned to the City Auditor to be audited and signed.

This procedure divides the responsibility for unpaid accounts, with the result that ultimate responsibility for delayed and lost accounts is lacking entirely. Furthermore a necessary part of the audit of expenditures is eliminated, for it is impossible for the auditor to audit work which he has performed himself.

Recommendations re Invoices and Warrants

To remedy the situation for the time being, the following regulations are recommended:

1. Every order to be made on the official order form, and no goods or supplies to be ordered or supplied otherwise.

2. Original order to go to the supplier.

3. Duplicate to go to Treasury Department. Duplicate orders for the Board of Works, Fire, and Police Departments should be attached to the voucher warrants before being sent to the Treasury Department.

4. Triplicate to be retained by the official ordering.

5. Each order to be signed by a responsible official, indicating the department for which ordered.

6. Invoices for Board of Works to be transmitted to City Engineer.

7. Invoices for Police Commission to be transmitted to the Chief of Police.

8. Invoices for Fire Department to be transmitted to the Fire Chief.

9. All other invoices and accounts against the city to be transmitted to the City Treasurer.

10. Each of the officials mentioned in items 6, 7, 8 and 9 to have warrants made out, with the relevant invoices and duplicate copies of orders attached.

11. All voucher warrants to be sent to the City Treasurer, to be initialed as to sufficiency of appropriation (per Revised By-law No. 4, Sec. 44).

12. Voucher warrants then to be sent to the auditor, for audit purposes and presentation to Committees of Council.

Order Forms

The duplicate order forms now being used appear to have been printed at least 17 years ago, and are entirely unsuited to present needs; in practice, their use seems to have become optional rather than being imperative, as it should be. I would recommend that the order forms on hand be scrapped and that they be replaced by new triplicate forms, larger in size, and serially numbered. The ordering and receiving of supplies is just as important as the handling of cash and should be properly safeguarded.

Respectfully submitted,

L. G. MACPHERSON,
City Auditor.

16. That on the advice of the City Solicitor the sum of One Hundred and Twenty-five Dollars be paid to Mrs. Albert Harmer, without prejudice, on account of damages caused by an accident on the sidewalk.

17. That the following accounts under List No. 18, amounting to $5,119.89, be paid, as per original List No. 18:

UNFINISHED BUSINESS

The Mayor's Retiring Address

His Worship Mayor Hanson presented his retiring address as follows:—

As this is the last regular meeting of the Council for the year 1936, I would like to briefly review some of the business dealt with during my term of office.

Last Friday when a deputation, which included Mayor-elect Dalton and myself, had an interview with the Hon. David A. Croll and two of the officials of his Department, the Minister of Public Welfare expressed his satisfaction of the manner in which unemployment relief is being administered in Kingston. He discussed with us certain angles of the problem, and although there is shown a substantial reduction in the cost of direct relief in Kingston this year, he is depending upon our adhering strictly in 1937 to our policy of issuing relief only to deserving families in need of assistance. The Public Welfare Board is required to furnish the Government with an estimate of its 1937 requirements, on a monthly basis.

In my inaugural address at the beginning of this year I gave an assurance that the administration of the Civic Relief Department would be reorganized. This was accomplished, with gratifying results. As an initial step the administrative offices were removed to the City Buildings, thus effecting a saving of $500 per annum, and other substantial reductions have been made in expenses related to the administration of this department, amounting to about $2,500.

Further, I also wish to draw your attention to an estimated saving by the end of the year of about $1,000 in bank interest on current advances and in charges made by the bank for the handling of relief departmental cheques. A change made last May in the method of issuing food and fuel accounts for the larger portion of this amount.

Col. H. E. Pense was appointed Relief Officer at the end of March. The members of the City Council and the general body of taxpayers are aware, I feel, of the results he has obtained. A considerable number of families were removed from the relief rolls by reason of the Federal and Provincial Governments providing employment on public works in Kingston and vicinity, and 26 men worked on an average of 4½ months each on the construction of storm sewers in the city streets. But from the beginning of April, nearly three months before most of these governmental and civic undertakings started, till the end of September, when there were fewer than 700 persons (an all-time low) getting benefits from our relief office, there was a constant reduction in the number of recipients.

Careful investigation of each case, which is so important, has been carried out, and the Relief Officer has successfully endeavored to give each case sympathetic consideration.

It is inevitable, of course, that with the closing down of seasonal work and the completion of government contracts the number on the relief rolls is now increasing. This applies particularly to unskilled labour.

For the 11-month period, Jan. 1 to Nov. 30, total cost of relief was: 1935, $158,502; 1936, $130,092. The saving to the city is $20,609, and the expense of maintaining relief recipients during the present month, it is anticipated, will be considerably lower than during December 1935. The city's share during 1935 was $60,857; for the 11-month period of the current year under review, the city's share was $36,097.

I am pleased to take advantage of this opportunity to place on record my appreciation of the faithful and very competent services Mr. J. M. Hughes has rendered as Chairman of the Public Welfare Board, and also to thank the members, Mrs. L. H. Smith of the Salvation Army, Mayor-elect C. P. Dalton, Mr. J. K. Fraser and Dr. R. P. Millan for the attention they have given the affairs of the department and for their very helpful co-operation.

Financial Operations

Prior to this year it was the practice to borrow from the bank sufficient moneys to meet our financial requirements till the revenue from taxes became available. The bank rate was 5%. This year we sold short term treasury notes at an interest rate of 2½%. It is estimated by the Treasurer that this change in financing saved the city about $3,000.

The City Treasurer, in the following letter addressed to me, reports:

December 10th, 1936.

His Worship Mayor Hanson,
Kingston, Ontario.

Complying with your request for an approximate statement of the year's operations, I beg leave to submit the following:

The revenue will show about $3,000 over Budget estimates for this year and, assuming that the Departments keep within their appropriations, I estimate that the year will end with a small surplus.

The main item of over expenditure is Administration of Justice, for extensive repairs to the Gaol, amounting to about $6,000
which is balanced by:
Surplus in revenue of about $3,000
Savings in cost of relief administration and under expenditures on contingencies, about 4,000
——— $ 7,000

With a large number of outstanding accounts, uncertain weather for the Board of Works to cope with, and three weeks of expenditure yet to be made. you will, I hope, appreciate the difficulty of making this estimate.

Yours respectfully,

(Sgd.) O. V. Bartels,
City Treasurer.

In regard to the item of $6,000 for the city's share of repairs to the Gaol wall, we could not anticipate this expenditure when the Budget was struck, and no provision was made for it in the Budget.

An item of expenditure not referred to by the City Treasurer of about $8,500, representing one-fifth of the estimated cost to the city of the current year's relief, developed by virtue of an order of the Ontario Municipal Board requiring the city to pay one-fifth of its share of the cost of relief from current revenue. The Finance Committee nor myself had any knowledge of this until after the Budget was struck. The Ontario Municipal Board approved our funding $48,000 of the city's share of 1936 relief costs, and whereas we are expecting that the total cost will be considerably less than $48,000, we are hoping the Ontario Municipal Board will permit us to fund 100% of this expenditure. To meet the funded relief debt and to provide for the cost of administration for the current year a rate of 5.11 mills was levied in 1936.

I am most anxious that next year's Council will start with a clean sheet after our taking care of an unavoidable deficit of $33,011 which was carried over from 1935, as shown in the Budget.

As an indication of the high credit standing of the City of Kingston may I allude to the sale at $101.03 of an issue of

$2\frac{1}{2}\%$ debentures. At a recent interview with a member of the Ontario Municipal Board we were complimented on the city's financial position, especially in regard to tax collections, which for the current year amount to 87.4% of the total. Further, considering the stress of the past few years, our tax arrears are low when compared with uncollected taxes in other municipalities.

Public Utilities Commission

As Mayor I became a member of the Public Utilities Commission and through the year my relations with my fellow-commissioners and the management were most cordial.

The vexing question of street lighting arrears was considered early in the year, and with the special committee of Council appointed to arbitrate, we were able to arrange with the Hydro the understanding that the amount of $15,000 was to be the total of arrears owed by the city to the Utilities Commission to the end of year 1936 to be paid out of the profit on street lighting accumulating in the future year by year.

I found that the Commission was unanimous in giving the city all the help possible. A rebate of twenty per cent was paid electric consumers and an electric rate reduction of ten per cent from April 30th, 1936. The water utility profit in year 1935 was also paid to the city.

The Public Utilities are in a very sound position financially and the services to the public have been creditably maintained. The plants are in an efficient state, and altogether the Public Utilities situation is a bright spot in civic affairs.

Elevator Sub-Structure

Resulting from settlement of the elevator law suit the elevator property and sub-structure were vested in the city, and this enabled us to negotiate a sale of the property to the firm of James Richardson & Sons Limited at a price of $62,500. In my opinion this result has been very satisfactory to the City of Kingston, and you will recall also that one of the conditions of sale is that an elevator is to be erected within about two years' time.

The Special Committee

The work of the Special Committee which was appointed to investigate, examine and report upon all city services and civic institutions, has met with the approval of the ratepayers, and I say in all sincerity I hope its efforts will bring beneficial results. I will not dwell upon its recommendations, as you are familiar with what has transpired, other than to refer to the most important recommendation advanced by this Committee—the amalgamation of the offices of City Clerk and City Treasurer under one head. To Mr. C. C. Wyatt, who was appointed City Clerk and City Treasurer, on recommendation of the Finance Committee of November 16th, I extend most cordial wishes for many years of happy and very useful service on behalf of this city.

With similar good wishes I make reference to Mr. L. G. Macpherson, who was appointed to the position of City Auditor on June 15th. From personal observations and information I have received from city officials I am satisfied he is carrying out his duties in a very competent manner.

As I am about to retire from the honorable office of Mayor of this city, I desire to voice my deep appreciation of the co-operation extended to me by the members of this Council. I do not recall a time when I requested assistance when it was not cheerfully given.

Due to this Council placing an age limit on the time an official of the city may continue to hold office, three of our most faithful officials are to retire at the end of this year. As Dr. W. W. Sands, City Clerk; Mr. O. V. Bartels, City Treasurer, and Mr. Edwin Mooers, Assessment Commissioner, have been associated with me in the City Hall for several years, I naturally regret that they come within the provisions of the requirements of the by-law.

Dr. Sands is known to be one of the most efficient City Clerks in Ontario and his knowledge of municipal government has been of inestimable value to our city's management. I believe the citizens of Kingston feel that these gentlemen have always worked in the interests of the taxpayers and share with me their regrets on their retirement. I wish to thank them heartily for their kindnesses and for the co-operation they extended to me.

In conclusion, I offer my best wishes to the members of the Council, the city officials and citizens of Kingston for a merry Christmas and a happy and prosperous New Year.

Moved by Ald. Dalton, seconded by Ald. Anglin, (9) that a hearty vote of thanks be tendered to Mayor George Hanson for the capable and able manner he has served the city as Chief Magistrate and the kindly way he has conducted the meetings of Council.—Carried.

Ald. Rowland presented By-law No. 31, 1936. The By-law was read a first time, and the 31st rule being suspended by two-thirds vote a second and third time, the second being in committee of the whole, Ald. Curtis in the chair, and was signed and sealed as follows:—
